

Take care!

C. Lehmann/ engl. Version: F. Schmidli

You lie in bed and watch the wall,
hopeless and too weak
Then feel the song and feel the power
It helps and makes you strong
Sing it loud and without fear
Your voice, we wanna hear it
Go for it and trust in you,
then a door will open!

**Take care, take care!
of your things and of yourself
Take care, take care
support the weak and sad ones
Take care, take care
of your body and your soul
Take care, take care
of your words and your thoughts**

Everything you do
has some impact to the world
Everything you say
is important for someone
You can be a good example for everyone
Go ahead and you will see
how happy you will be

Ref

Take care! Of all your things
Take care! Of your feelings
Take care! Of all the people
Take care! Of yourself!
